

## WEST GERMAN ELECTION FRAUD ATTEMPT TO STOP ELC

WIESBADEN, BRD, Oct. 29 (IPS)--Election fraud against the European Labor Committee (ELC) candidate in the West German Hesse state elections was confirmed today through an "official" ELC vote tally of only 23 votes. In a manner similar to the election fraud against the U.S. Labor Party in the last Newark, New Jersey elections, Rockefeller agents in either the Social Democratic Party or the neo-fascist Christian Democratic and Social Unions made certain that this election would not be a working class mandate. All the Maoist candidates, though, somehow managed to pull 1.6 per cent of the total vote for their mangy, anti-working class countergangs--even though the German Communist Party, which has an actual working class base, tallied only 2.1 per cent of the vote.

These election frauds only add credibility to the working class potential that the ELC is creating in European politics. Agents do not waste time stuffing ballot boxes unless they feel that they have to stop the ferment around the Labor Committees by all possible means.

## TRUDEAU PUSHES TRILATERAL LINE IN EUROPE

Oct. 29 (IPS)--In a press conference in Brussels Oct. 25, Canadian Premier Elliot Trudeau bared the purpose of his Rockefeller-rigged mission in Europe. After a week of European press hoopla about his recent "anti-U.S." intentions, and immediately following his visit to NATO headquarters, Trudeau complained that his trade propositions have not been taken seriously enough by the Common Market.

Addressing the Europeans on the eve of his return to Canada, Trudeau exclaimed: "You might think you are going to get all our raw materials; well, you're wrong!" Trudeau also announced that he had informed the EEC Commission that Canada now was adopting a drastic new policy in terms of energy, natural resources, and foreign investments--essentially, Rockefeller's labor intensive energy "development" plan. He then stated that "the problem with the Common Market is that it has not yet found its 'identity'."

Trudeau's warning was intended to push the strategy laid out two weeks ago by the Rockefeller cabal at the secret Trilateral Commission meeting in Bellagio, Italy. The "identity" meant was that of the "disengaged Europe." This concept of a "neutral, united Europe" is designed to lure the Soviet Union into thinking that Europe will act "independently" of the U.S.

Significantly, the press conference was not covered in the main Canadian press, although Trudeau's trip to Europe was preceded by a heavy "anti-U.S." nationalist campaign in Canada in which the tightening of the Canadian-EEC cooperation was presented as the "last alternative" for Canada.
