

occupied northern Italy during the post-1943 period.

The Zionist circles, including the present Israeli governing circles, complicit in the business, including key elements of the international B'nai B'rith, are allied with the Lebanese Nazis, the Croatian Nazis, and with the fascist organizations of such nations as Italy and France, as well as closely interlocked with the Eastern European "Captive Nations" groups.

The Zionist links into the Shelton branch of the Ku Klux Klan are not merely parallel to the same Zionist faction's links to the Maltese fascists. The Ku Klux Klan was a resurrection of the treasonous secret organization, the Knights of the Golden Circle, the latter suppressed for its role in the assassination of Lincoln. ("Kyklos" is Greek for "circle.") The original knights were a British intelligence operation, established as a continuation of an earlier, Tory, British intelligence network deployed against the American Revolution and the constitutional republic. The Knights' regalia and ritual were parodies of the costumes and mumbo-jumbo of the Maltese Order.

## The Overall Networks

Apart from Peking intelligence and some odds and ends, there are three principal, top-most elements to be considered in the assassination operation. The topmost layer is centered in the British monarchy and the City of London. These serve as reference points to pull together the "black nobility" of Europe around the Maltese Order. These forces control a powerful network dominating the international organizations of the Socialist International. These networks created and control, top-down, the principal Zionist organizations.

Hence, to say that the British monarchy, the City of London, the Black Maltese, the British faction of the Socialist International, and the British Zionists all participate in creating and deploying international terrorism ought to generate no confusion. These entities are all participating aspects of the same thing.

This same combination of forces is also the opposition to the Bremen agreements, the backing of the "environmentalist" ferment, and is the source of every notable slander, harassment, and other attacks against the U.S. Labor Party and its allies in every part of the world.

There is not a single case of slander, harassment or other attack against the Labor Party whose authorship is not now known and proven to emanate from these indicated circles.

The 1974 Giannettini report, which details the point that Israeli intelligence has coordinated international terrorism since approximately 1969, is confirmed not only by the Klein case, but by many key intelligence and security services and in large part by our own direct investigations.

So, we are not astonished, when digging into a dirty harassment operation run against us in New York, to turn up a notorious, convicted, top Israeli intelligence assassin in the middle of coordinating that operation.

Obviously, the list of names of persons who are wittingly complicit either in the assassination project itself, or in slander, harassment and overtly criminal operations otherwise integral to the assassination operation as a whole, is very long. This list is limited to agencies and persons of established, witting complicity. They will be named.

—Lyndon H. LaRouche, Jr.

# Guyana End Of Assassination Plot

*Printed below is a Sept. 7, 1978 statement issued in New York City by the U.S. Labor Party National Executive Committee:*

We have just received the original text of a libel against U.S. Labor Party Chairman LaRouche first published in Georgetown, Guyana ten days earlier. The slander, issued by a New York City-groomed Maoist, one Kester Alves, alleges that LaRouche is notably complicit in an attempted destabilization of the Guyanese government by U.S. intelligence agencies.

The facts of the matter, developed with the aid of most-reliable sources, is that IMF and allied British agencies are attempting to manipulate Guyana's Mr. Forbes Burnham into unblocking an assassination

order against the celebrated former Foreign Minister of Guyana, Mr. Fred Wills.

At present, a task-force is deployed, with the purported blessing of the Guyanese government, to maintain heavy surveillance and harassment operations against Mr. Wills. The head of the task-force, a known person, is prepared to arrange an assassination if given authorization to proceed. To latest knowledge, the waiting assassin has been given no "kill" go-ahead. The slanderer, Alves, is part of the conspiratorial group attempting to panic Forbes Burnham into taking responsibility for allowing the murder to be authorized.

Not astonishingly, the included target of the operation is Mr. Forbes Burnham himself.

Although Mr. Burnham has capitulated to the geno-

cidental "conditions" imposed by the International Monetary Fund, he did so after prolonged resistance, a resistance featuring Mr. Burnham's Foreign Minister, Mr. Wills. The IMF is now determined to oust Mr. Burnham. Mr. Burnham has been maneuvered, most recently, into ousting reliable officers of the Guyanese Army, thus further cutting himself off from base of support, and giving Maoist factions a vastly improved position and coup-capability within his government.

The general British-IMF scenario for ousting Mr. Burnham is no secret in diplomatic and intelligence circles. In particular, if Mr. Burnham were blamed for an assassination of Mr. Wills, the forces of marijuana-farmer the "Reverend" Jim Jones and others would raise a clamor for Mr. Burnham's ouster. With the aid of British intelligence-linked sudden mourners of a deceased Fred Wills, the Maoists who trapped Mr. Burnham into unblocking the kill order would spearhead Mr. Burnham's ouster.

Alves himself was appointed to his minor governmental position in the wake of the first of a series of reorganizations of the Guyana government demanded

by the IMF. Former Foreign Minister Wills's departure was only the first and most obvious of the changes accompanying the imposition of "IMF conditions." Wills is not only a prominent international figure, but is a leading target on a Henry A. Kissinger "hit list" which also includes Pakistan's Ali Bhutto, India's Indira Gandhi, and other prominent figures Kissinger regarded as largely responsible for the August 1976 Colombo resolution. As the IMF gains a stronger foothold over the Guyanese economy and government, more and more wretches such as Maoist Alves are added to governmental positions.

The further significance of Alves' libel was the heavy emphasis on Chairman LaRouche. This curious feature of the libel coincides with a fresh assassination operation ordered against LaRouche by the British monarchy, an operation now being deployed under coordination of partially known elements of Israeli intelligence "on loan" to international B'nai B'rith figures. In this side of the matter, Alves's curious stress on LaRouche merely echoes his British masters' efforts to create a thick veil of varied slanders around the attempted LaRouche assassination itself.

### Alves: "Crude Attempt to Destabilize"

*Excerpts from the Kester Alves article published in the Aug. 31 Guyana Chronicle appear below:*

Ever since the Guyana government adopted a firm, exemplary anti-imperialist foreign policy and seriously embarked on the Socialist transformation of the society, the country has been the target of attempts at destabilization.

These acts of destabilization have not been restricted to blatant and — from evidence at my disposal — at times rather crude attempts at intervention in our domestic affairs, but includes a carefully orchestrated propaganda campaign to distort the reality of the Guyana situation.

This campaign of distortion involves elements (in some instances aided and abetted by local quislings intent on furthering their own partisan interests at all costs) from the extreme right — who are justifiably perturbed at the revolutionary example Guyana will provide to the rest of the world, and the ultra-left, who would favor policies (both domestic and external) of unbridled adventurism.

It is in this context that a statement purportedly issued on July 28 in New York by Lyndon LaRouche, Jr., who is described as the "Presidential Candidate of the U.S. Labor Party for

1980" and headlined "Life of Minister Fred Wills in Immediate Danger" must be viewed.

(It should be noted that the U.S. Labor Party is a splinter group of the U.S. Communist Party and is generally thought to be heavily infiltrated by U.S. intelligence agents.)

Describing ex-Minister Wills as "one of the world's leading humanists and contributors to the current anti-British grand design developments," LaRouche ended his statement with a call "on all humanist layers to promptly make felt their concern for the life and safety of Minister Wills and his family."

What arrant nonsense! At best the wild imaginings of an emotionally disturbed mind, and at worst a mischievous (if somewhat ludicrous) fabrication aimed at bringing the government and country into disrepute. (Incidentally, I have my strong suspicions — based on much more than intuition — as to the identity of the person who provided the misinformation which formed the basis of LaRouche's press statement; but in the absence of concrete evidence I would prefer not to elaborate.)

...I tender the statement as an example of the kinds of pressure which are brought to bear on periphery countries — like Guyana — seeking to radically transform socio-economic and political relationships at both the domestic and international levels.
