

in his July 17 appearance with Corzine: “Now is when we’ve got to get over the finish line. This is when you start hearing the same criticism, the same scare tactics that have held us back in the past. And if you do hear these critics, I want you to ask them a question I always ask: What’s your plan? What’s your alternative?”

Tell them you know precisely what the alternative

is. It is the obliteration of every aspect of the Obama reform, in favor of a health-care system based upon American System principles of providing for the life, liberty, and pursuit of happiness of every citizen. The system, as outlined by Lyndon LaRouche, is what must be on the table. And if Obama doesn’t like it, he’s the one who should get out of the way.

Proposed Act: ‘The Right to High-Quality Health Care’

This proposed bill originally appeared in EIR, May 5, 2000, and in a mass-circulation pamphlet entitled, “Ban the HMOs Now! Before They Get You and Yours,” issued by LaRouche’s Committee for a New Bretton Woods, May 2000.

Declaration of Purpose

The purpose of this legislation is: a) to affirmatively establish the right of every person to the highest quality health care available; b) to abolish Health Maintenance Organizations (HMOs), Managed Care Organizations, and the practice of managed care by health insurers; and c) to re-assert the principles of the Hill-Burton Act (42 U.S.C. Section 291 et seq.) as the primary policy governing U.S. health policy.

This Act is necessitated by the immediate crisis in the health conditions in the United States, where millions of citizens are denied access to necessary health-care services due to the financial practices of Health Maintenance Organizations, Managed Care Organizations, the practice of managed care by health insurers, and the lack of adequate medical facilities in many communities in the country. This has created a health-care emergency in the United States.

Under the Preamble to the United States Constitution, the Federal Government is required to “promote the general welfare,” thus necessitating immediate action by the Federal Government to address this health-care emergency.

The lack of access to adequate health care, and the practices of the Health Maintenance Organizations

and Managed Care Organizations, are in violation of Article 25 of the Universal Declaration of Human Rights of the United Nations, and Article 12 of the International Covenant on Economic, Social, and Cultural Rights, which establish the universal right to adequate health care, and require governments to take steps to assure access to quality medical care. The United States is a signatory to these declarations and covenants.

The practice of denying needed medical treatment to certain persons in order to cause their death, was prosecuted as a crime against humanity by the United States in the post-World War II Nuremberg Tribunals.

Section 1
